Presentation of Christmas in Norway by Lars

The feeling of Christmas is a wonderful feeling. The snow is flowing down in a big rush and the ground is full of snow. There is so many stalls that are selling Christmas sausages and gingerbread and having a fun time. People building gingerbread houses and waiting to eat them. People putting presents under the tree waiting for the time to open them. People cracking nuts open with a nutcracker drinking hot chocolate and drinking glug. Eating salted and dried ribs of mutton and ribs. After the food is gone or people are full of food they bring out dessert like chocolate blancmanage. After dessert «Santa» comes and gives presents, after santa comes we open the other presents and have a good time.

Christmas marked

IN OSLO

Is iceskating maybe your thing
Show it off then!

The christmas marked is a
marked open from november to
january on Oslo's busiest street.
Popular among Norwegians for
good reasons.

You can taste delicious
candy apples, or maybe a
cup of hot mulled wine
would be nice in the
cold? Point is that they
got it all.

You can even get a taste
of France with some
crêpe de la crêpe, also
just pancakes.

Christmas in the Czech Republic

Christmas in the Czech Republic is probably the most popular holiday. We've got a large skating rink in the square in our town Jihlava this year. That's great. In addition, there should also be Christmas stalls, but because of the covid situation the Christmas market was unfortunately cancelled. Fortunately, a stall with cinamon pie is here. Our friends and we have already bought it and we can only recommend it.

In the Czech Republic we don't have Santa Claus, we've got a little Jesus who brings the presents. Our tradition is to bake Christmas sweets and decorate the Christmas tree. On Christmas Eve which is 24.12. the whole family have dinner together. Czech people eat carp with potato salad. Yum. Yum.

Then the best part is unwrapping the presents. Some families also follow old traditions, for example lead pouring and kissing under the mistletoe.
Merry Christmas to you all!

Christmas greetings
I wish everyone a Merry Christmas to spend in joy with your family
Happy Holidays!!!!

Christmas in Italy

Popular traditions

The most famous Italian tradition is the crèche.

It's a miniature of the day of the birth of Jesus, but the figurine of baby Jesus is put on Christmas day.

There are: the ox, the donkey, Maria, Giuseppe and some people.

The Christmas tree

In Italy, Santa Claus doesn't put the presents in the stockings, but under the tree. The tree is always luminous but, sometimes, small but really cute.

In all central city there are very big trees! They are decorated with some rainbow light, strass, all balls and a big star at the top. It is a beautiful show.

The families love decorating the tree all together. This is a very important moment in the Italian family life.

The big Christmas Tree in the main square of our town

Food

In Italy the Christmas food is various and all are very very good. The most important are Panettone and Pandoro

But, there is other food, for example: Cappelletti in brodo or the abbacchio. They are delicious!

Italy has got some food for each region, there are too many to list them all.

Songs

Italy has got some beautiful songs:

- Star of the sky (astro del ciel)
- you come down from the stars (tu scendi dalle stelle)
- At Christmas you can (a natale puoi)
- baby Jesus (Gesù bambino)

There are other songs very cute and catchy

France is part of Europe, one of its largest countries. Known as the "Hexagon", it is often represented by a flag, a rooster, the Marseillaise... It can also be symbolised by a monument, the Eiffel Tower, the Notre Dame de Paris cathedral... All these monuments are part of UNESCO's world heritage

Its gastronomy is famous. We have in Picardy (our region) the "ficelle picarde" (salted pancake) for example.

France's landscapes are as varied as its traditions from North to South, and from East to West.

La France fait partie de l'Europe, l'un de ces plus grands pays. Dite comme "Hexagone", elle est souvent représentée par un drapeau, un coq, la Marseillaise... Elle peut aussi être symbolisée par un monument, la Tour Eiffel, la cathédrale Notre Dame de Paris... Tous ces monuments font partie du patrimoine mondial de l'UNESCO

The Czech Republic

The Czech Republic lies in the heart of Europe. Its neighbouring countries are Poland, Germany, Slovakia and Austria. The Capital city is Prague. The Czech Republic has about 10 700 000 inhabitants. There are mountains along the borders, for example Krkonoše with the highest mountain Sněžka. It is 1603 m high. The personalities all Czech people are proud of are e.g. Charles IV., T. G. Masaryk, Václav Havel or Jaromír Jágr. Contact lenses were invented by Otto Wichterle. This invention made us famous too. Our country is small, but it has a lot to offer. You would be amazed by beautiful Prague or wild nature. We haven't got a sea, but we have got beautiful big lakes. Come and visit our country!

Norway is a rich country up in the north. Norway got their richness by finding oil in the sea. Our prime minister is Jonas Gahr Støre and he works for Ap (Arbeiderpartiet). Their currency is NOK (Norwegian kroner). There is 5 million people that lives in Norway. The king of Norway is Kong Harald. Norway's neighbor's is Sweden, Finland and Russia. Norway's national day is 17th May, the national anthem is "Ja, vi elsker dette landet". Norway's constitution got made on May 17th, 1814, in Eidsvold. There were 112 men that were making the constitution.

Christmas in Norway is a lot different than the rest of the world, we have Christmas on 24th December rather than the 25th. Santa Claus is called "Julenissen" in Norwegian, Santa Claus comes inside your house on Christmas in Norway to give you presents. We have a countdown type of thing in Norway we call it a "Julekalender" where each day in December you get to open a hatch with candy, or you open up a present each day.

Easter is not so different in Norway then the whole world. On easter day you go around and search for an easter egg filled with Norwegian candy, throughout the searching for the egg you get to find hints to where the egg is.

FICELLE PICARDE

PRÉPARATION

INGRÉDIENTS

- 4 crêpes
- 500g de champignons de Paris frais
- jus de citron
- poivre & sel
- 4 tranches de jambon
- 20cl de crème fraîche
- gruyère râpé

TEMPS DE PRÉPARATION

- Préparation | 30 min Cuisson | 10 min

01 -Faire des crêpes selon la recette classique (ne pas sucrer la pâte à crêpes). Réserver 4 crêpes

02 -Laver les champignons et les couper en lamelles. Les faire revenir dans un peu d'huile d'olive jusqu'à disparition du jus, puis ajouter la crème fraîche et le jus du citron, saler, poivrer. Laisser mijoter 10 mn à feu doux.

03 -Quand la préparation est tiède, dresser les ficelles picardes : poser une crêpe à plat sur une assiette, y poser une tranche de jambon, puis au centre sur la longueur le quart de la préparation aux champignons. Rouler le tout et poser dans un plat allant au four

04 -Faire la même chose avec les 3 crêpes restantes.

05 -Saupoudrer les ficelles de gruyère rapé et passer au four à 200° (th 5) pendant 10 minutes. Déguster bien chaud

Nausicaà

Passer une journée au bord de la mer et visiter l'un des plus grands aquariums d'Europe.

Une sortie à Nausicaa a été organisée par les élèves de l'école (2 classes de CM1) le 27 septembre.

Nausicaa se trouve à Boulogne-sur-Mer dans le Nord de la France.

Spend a day by the sea and visit one of the largest aquariums in Europe

An outing to Nausicaa was organised by the school's pupils (2 classes of CM1) on 27 September. Nausicaa is located in Boulogne-sur-Mer in the North of France.

My school is called "Istituto Comprensivo Paolo Volponi". Its structure is very large, it has many services: the canteen, after school activities, public transport nearby, presence of public parking, computer lab, language laboratory and prolonged time of all types of musical instruments. There are 11 classes and about 230 students in total. The head of the school is the Principal, in Italian 'preside', and then there are the teachers. All the students are very happy in this school, it's really cool.

Written by Gianluca Bolognini

Paolo Volponi

Born in Urbino in 1924, he was an Italian writer, poet and politician, senator of the Italian Republic during two legislatures. He attended the Liceo Classico Raffaello in 1940 and in 1943 he enrolled in the nascent Free University of Urbino where in 1947 he obtained his degree. He started working in Rome in 1953, then later moved to Turin. Paolo Volponi died in 1994 due to a disease that struck him in the kidneys.

Presentation of our school clubs/activities and Hakadal ungdom skole

Here's a picture of our principal on our school, her name is "Bodil" and has worked here for about 30 years.

Unlike many other countries, Norway doesn't have any school clubs/activities during the day.

Hakdal ungdomsskole «Hakadal Ungdomsskole»,

also called «Hus», has exactly 221 students. We have 8th, 9th and 10th grade, with 3 classes in 10th, 3 classes in 9th and 4 in 8th. It is around 17-25 in each class. We have a really big gym in relation to the rest of the school tho. Our school is actually really bad if you look at the other schools here in Norway.

This is one of the classrooms, this picture got taken in one of the 10th grade classrooms, pretty much all of the classrooms is like this, but 10th grade has like wooden walls, all of the others is just white.

The local government doesn't use any money on us, they just finished building a primary school right next to our junior high school.

This is HUS from outside, you can't see the whole school, but this is a big part of it.

Our school got built in the 1970s. But didn't open or allowed students to go here until 1983! That's a really big difference between when it got built and when it opened.

Ungdomsklubben

Open on Monday's from 19:00-21:00

On ungdomsklubben we have a disco room and a ps4. We have a gymnasium with lots of balls with no air. We have a kiosk and fight scenes outside. We also have a lot of wannabe gangmembers coming to our club. The ungdomsklubb is a place to hang out with your friends while doing almost nothing. It's a club run by the council, and because of that were not allowed to change out anything.

Back to school

That feeling to come back to school is a bit raw. That feeling when you have had a boring summer vacation and have enjoyed you to finally begin on the school is so sick good. It is really weird starting school again for the reason that I just went from primary school, to junior high school. It is a REALLY big difference. I really miss primary school, its so much to do in junior high school and we have a lot of homework.

Gymnázium Jihlava in the Czech Republic

We would like to show you OUR SCHOOL.

It's a grammar school in Jihlava. It is located in the centre of the town, near the cinema and the winter stadium. The bus station is near. You can see the building of the school . If you want to attend this school, you must pass the entrance exam, which isn't very easy. But we made it! So we will study for six years, but you can study there also for four or eight years.

Our school is composed of 3 buildings. We know, that the most favourite place in the whole school is a snack bar, where is literally everything you need to survive 😊.

If you want to train your body, you can go to the gym. There are lots of classrooms, some classrooms are ordinary, but then we've got some special classrooms for languages, biology or chemistry.

If you want to borrow some books, you can go to the school library and there's a very kind librarian. Our school canteen isn't in the school, but it's near.

When we arrive to the school in the morning, every student has their own locker in the cloakroom. You can connect the Wi-Fi in our school too.

Hope you visit our school one day!

Corona Time

We dont use mask and have like a normal Day.
We dont think about the Distanse
We have antibac in each class room, But sometimes
we dont even use it.
We have it pretty good here in the School because
its not so much to worry about right now.
I dont really think about the Corona virus .

It has been more
infection now.
Possibe rules is that we
use masks on school
because it is kinda hard
to hold distanse to each
other, And close down
the most of the
restaurants and things
like that. Maybe we can
make it to be smaller
again.

COVID-19
CORONAVIRUS

Update December

At school, we now
have to be
separated from the
other years. We also
have to wear masks
