

# Mataro October 2023 evaluation of the stay

Funded by  
the European Union

I really liked,  
enjoyed ...

time with Spanish friends.

meeting new people, doing interesting and fun activities or spending time on the beach nearby

Catalan nature and city walks, I also enjoyed activities like bowling or swimming

how everyone (teachers, families,...) was so nice and friendly.

the whole program.

this weekend. The best memory will be from the beach.

I have  
learnt ...

some Spanish words

about Barcelona.

how people live in Spain, their culture, traditions and habits. And I also think that I really improved my English.

how to make some typical Catalan meals, something about history and festivals of both Barcelona and Mataró.

I learned to be more independent. And I got better at bowling.
